

MICHIGAN WILDLIFE COUNCIL  
SEMI-ANNUAL REPORT TO THE LEGISLATURE  
Approved by Michigan Wildlife Council on October 24, 2017

The Michigan Wildlife Council (MWC) is pleased to provide its sixth semi-annual report to the Legislature of the State of Michigan.

As mandated by 2013 PA 246, the mission of the MWC is to develop and implement, in conjunction with a third-party marketing or advertising agency, a comprehensive media-based public information program to promote the essential role sportsmen and sportswomen play in furthering wildlife conservation and to educate the general public about hunting, fishing, and the taking of game. The Michigan Wildlife Management Public Education Subaccount was established within 2013 PA 246 to support this mission and is derived by a one dollar surcharge on all Michigan base hunting and fishing licenses. Unaudited Fiscal Year 2017 expenditures from the fund (through September 30, 2017), are shown at the end of this report.

To support our mission MWC has developed a program to inform the public about the importance of wildlife conservation and its role in preserving Michigan's great outdoor heritage for future generations. Currently the MWC is dedicated to a strategy of increasing public knowledge on how wildlife and Michigan's outdoors are scientifically managed and funded so that we can continue to enjoy them as we do today.

On July 27, 2017, Governor Rick Snyder announced the appointment of Beth Gruden, of Perrinton, to the Michigan Wildlife Council. Gruden represents Michigan agriculture producers and filled the vacancy created by the resignation of Merisa Campbell. The nine-member council includes the Director of the Department of Natural Resources or his designee (Kristin Phillips) and the following eight members: Carol Rose, Ed Roy, Hank Stancato, Jeff Poet, Jim Hammill, Matt Pedigo, Beth Gruden, and Randy Stec.

Since the submission of its first semi-annual report in May 2015, the MWC has been working with GÜD Marketing of Lansing on the marketing campaign. The MWC's inaugural campaign "*Here. For Generations.*" has been in market for 18 months. The success of the "*Here. For Generations.*" campaign is measured through the tracking of paid media metrics over the course of the campaign, as well as through formative assessments (i.e., online surveys, focus groups). The paid media metrics measure: impressions, frequency, reach, web ads clicked, website hits, social engagement, media coverage, and partnerships.

The campaign generated over 357,160,000 campaign impressions and over 8,761,954 campaign engagements (clicks to websites, likes, shares, videos, views) between April 2016 and June 2017. The campaign had a sustained marketplace presence from January through March 2017, then escalated mid-April through the first week of June. The campaign maintained an elevated presence from June through September and introduced new dynamic elements that provided greater interactivity. New assets included content articles, video content, paid social ads, additional website content, and new radio spots. In April 2017, direct traffic to HereforMiOutdoors.org increased from 23% to 31%, a strong indicator that broad campaign tactics (i.e., TV, radio, outdoor) drive online activity. The new campaign video exceeded expectations for click rate, averaging 10% - 20% above the industry average. Most campaign engagements continue to come from adults aged 18 - 34 in southeast and west Michigan, confirming effective execution of audience targeting.

During the August 2017 MWC meeting, the council received an update on the paid and earned media results for year two, flight two (January 2017 - June 7, 2017). GÜd Marketing presented a summary of key findings from the focus groups and an early preview of the second statewide survey results. Completed creative assets for Year 3 (starting October 2017), including fact-based digital ads, interactive digital ads, enhanced website content, and four video content stories, were presented to the MWC during the August meeting. The council approved the recommended paid media plan for the remaining three months of year-three, flight-one (October 1, 2017 to December 31, 2017). The council also approved the recommended sportsmen communication strategy (with tactics that include talking points, presentation updates, a brochure, campaign video, earned media, and content marketing).

Early metrics from the interactive digital content introduced in July 2017 show strong audience engagement (interactive rates 3 times the industry average). Looking ahead, the council will continue to monitor and optimize paid social and digital content to connect audiences with deeper campaign messaging and elevate the importance of conservation funding.

The MWC continues to seek ongoing opportunities to keep stakeholders, legislators, and the public informed of its progress. In addition to the attached schedule of media appearances organized by GÜd Marketing, council members were invited to speak at the National Association of Sportsmen Caucus Summit in Traverse City in October.

The MWC appreciates the Legislature's continued support and the opportunity to report on council activities since April 2017.

Respectfully,  
MICHIGAN WILDLIFE COUNCIL
